PROFESSIONAL SUMMARY

UI/UX Designer with 5+ years of experience across 20+ projects, designing websites, web applications and mobile app interfaces, from user research and user flows to high-fidelity UI and front-end code. Skilled in Figma, wireframing, prototyping and design systems, with hands-on HTML5, CSS3, JavaScript, Bootstrap and Tailwind CSS, so designs ship as intended. Currently leading UX for Spiral Compute's design team as the company expands into digital solutions for small and mid-sized businesses. Experienced in training designers and working closely with developers and stakeholders across parallel projects. A background in English Literature and Mass Communication brings strong UX writing and content skills.

SKILLS

- **UX:** UX Research, User Flows, Information Architecture, Wireframing, Prototyping, Usability Improvements, UX Writing
- **UI:** User Interface Design, Web Design, Mobile App UI, Responsive Web Design, Design Systems, Material Design 3, Visual Design, Illustration
- **Front-end:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, Tailwind CSS, Figma-to-HTML, Page Speed Optimization
- **Tools:** Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Adobe XD, Krita, Notion, Generative AI tools (Claude, LLMs)
- **Collaboration:** Developer Handoff, Stakeholder Management, Cross-functional Collaboration, Mentoring and Training

EXPERIENCE

UX Specialist
May 2026 – Present

Spiral Compute · Wellington, New Zealand · Remote

- Lead UX and UI as Spiral Compute repositions its market presence across New Zealand and India.
- Restructure the site's information architecture and design the "What we offer" services pages to explain a broader offering clearly to business buyers.
- Design responsive layouts in Figma and work with stakeholders to align messaging, brand direction and user needs.

UI/UX Designer and Front-end Developer (Interface Specialist)
Mar 2021 – Apr 2026

Convergent Infoware Pvt. Ltd. · Kolkata, India · Remote

- Designed user interfaces for websites and web applications across 20+ client projects, from UX research and wireframes to high-fidelity Figma designs.
- Converted Figma designs into pixel-perfect, responsive front-end code using HTML5, CSS3, JavaScript, jQuery and Bootstrap.
- Built wireframes and design systems that kept UI consistent across projects and sped up design-to-development handoff.
- Managed several projects in parallel and partnered closely with developers during build to refine designs and resolve UI issues.
- Trained designers and front-end developers within the company on design and front-end practices.
- Worked with stakeholders to keep design and development goals aligned, and improved usability and page speed on delivered sites.

PROJECTS

FinEducation – Money Management and Financial Literacy App (UX Case Study) 2026

Mobile App · Figma, FigJam, Material Design 3

- Designing an inclusive personal finance app for people who manage household money but feel shame or anxiety around money conversations.
- Ran UX research and mapped user flows in FigJam: one shared onboarding, then four goal paths (saving, healthier habits, investing basics, "just show me where to start").
- Designed end-to-end wireframes for the Tracker, Rupee Plan and Courses journeys, including expense tracking, budget streaks and bite-sized lessons.
- Made shame-free design decisions: weekly celebration popups instead of always-on warnings, a "seedling" tier instead of a failed month, and supportive copy such as "Revisit weak spots".
- Built a design system on Material Design 3 (custom colour roles, type, radius and Hugeicons) for hi-fi screens and a clickable prototype; created the hand-drawn Gullak mascot.

Client Websites – UI Design and Front-end Development

Convergent Infoware

- aurivlearning.com: rebuilt pages in HTML from a WordPress theme and enhanced the UI.
- globalpetcab.com: improved the Figma design, developed HTML from it and improved page speed.
- dideaservices.com: designed the UI in Figma, built the HTML for all pages and improved page speed.
- petmuch.com: built HTML from client-provided designs and improved page speed.
